**Royal Manchester Children's Hospital receives over 280,000 patient visits every year. For those children and their families it can be a very difficult time but with your help we can make a difference for every child, every day.**

As a charity, we aim to make a real difference to the children and young people in our care by ensuring they continue to receive the highest quality treatment in the highest quality facilities. We do this by focussing our support on three key areas. These are:

**Treatment** – Purchasing specialist equipment that makes diagnosis and treatment of our young patients quicker and easier.

**Research** – Funding cutting edge clinical research to improve our understanding of children's illnesses and how best to treat them.

**Care** – Creating a more child friendly environment by turning stark and clinical environments into warm and welcoming places where children, and their families, feel at ease.
